Re: Pending Amendment to Agreement

Dear Rankin County Board of Supervisors:

Global Tel*Link Corporation (the "Company") and Rankin County, Mississippi (the "Premises Provider") are parties to a certain Services Agreement, dated July 22, 2015, as amended from time to time (the "Agreement").

Effective October 26, 2021, the Company must make certain changes to inmate telephone service rates and ancillary service charges mandated by the Federal Communications Commission ("FCC") Third Report and Order, Order on Reconsideration, and Fifth Further Notice of Proposed Rulemaking issued in WC Docket No. 12-375 on May 24, 2021 ("FCC Order").

As you know, the parties have been in discussions over the past several months regarding the modifications to the Agreement necessary to comply with the FCC Order. Unfortunately, we have run out of time and the Company must implement certain changes to inmate telephone service rates and ancillary service charges or face steep penalties imposed by the FCC for failure to comply with the law.

The changes mandated by the FCC Order are required to take effect on October 26, 2021 (unless the FCC Order takes effect at a later date). Per the parties' verbal agreement to the changes reflected in the enclosed Amendment #3 to the Agreement (the "Amendment"), the Company will implement the changes set forth in the Amendment on the dates set forth in the Amendment regardless of any delay in signing the Amendment so that the Company can comply with the requirements of the FCC Order.

We look forward to continuing to work with you, and supporting you and the community you serve. We are ready to work with you at your convenience to finalize the Amendment to the Agreement. Thank you for your cooperation on this matter.

Sincerely,

Robert Wells
Account Manager

This Amendment # 3 ("Amendment") takes effect October 26, 2021 or the effective date of the FCC Order (as defined below), whichever is later ("Effective Date"), and amends and revises that certain **SERVICES AGREEMENT**, dated July 22, 2015, as amended on July 11 2016, and November 17, 2020 (the "Agreement"), by and between **Global Tel*Link Corporation** with an address of 3120 Fairview Park Drive, Suite 300, Falls Church, Virginia 22042 (the "Company"), and **Rankin County, Mississippi,** with an address of 211 East Government Street, Brandon, MS 39402 (the "Premises Provider") (Company and Premises Provider collectively, the "Parties" and each a "Party"). All capitalized terms not defined herein shall have the definitions set forth in the Agreement.

WHEREAS, the Federal Communications Commission ("FCC") issued its Third Report and Order, Order on Reconsideration, and Fifth Further Notice of Proposed Rulemaking in WC Docket No. 12-375 on May 24, 2021 ("FCC Order"), which mandated certain rate caps for inmate telephone services and ancillary service charges, and other requirements; and

NOW, THEREFORE, in consideration of the promises and covenants set forth in this Amendment, and for good and valuable consideration, the sufficiency of which is acknowledged by the Parties' signatures, the Parties agree as follows:

1. Effective October 26, 2021 or the effective date of the FCC Order, whichever is later, the rates and charges for international, interstate, and intrastate inmate telephone service ("ITS") calls and associated ancillary service charges set forth in the Agreement shall be deemed revised without further action by the Parties, and shall be implemented, as follows:

   No per call, per connection, or flat-rate calling charges shall apply to international or interstate ITS per minute of use calls.

The ITS rates set forth above are exclusive of taxes and other amounts collected by the Company on behalf of, or paid to, third parties, including but not limited to payments in support of statutory or regulatory programs mandated by governmental or quasi-governmental authorities, such as the Federal Universal Service Fee, and any costs incurred by the Company in connection with such programs.

2. Effective October 26, 2021 or the effective date of the FCC Order, whichever is later, the commission payable to the Premises Provider under the Agreement shall be **twenty-eight percent (28%)** of each completed billable ITS call, which shall be paid within forty-five (45) days following the month in which the call took place. The foregoing commission shall be paid on a one-time basis for each completed billable ITS call, and shall replace any and all commissions or other monies payable under the Agreement by Company to the Premises Provider, or to any fund or third party designated by Premises Provider for ITS.

3. Section 15 of the Agreement is hereby deleted in its entirety and replaced with the following:

> "Assignment. This Agreement shall inure to the benefit of and be binding upon the Parties and their respective permitted successors and assigns, including but not limited, to any new administration or head of Premises Provider. controls, is controlled by or is under common control with Company (each an "Affiliate") without the consent of the Premises Provider; provided, further, Company shall remain liable for any failure of any Affiliate to perform any assigned obligations. For the avoidance of doubt, a merger involving (i) Company or (ii) a sale of Company or all of Company's assets shall not constitute an assignment requiring consent of Premises Provider for purposes of this Agreement."

4. The following Section is hereby added to the Agreement:

"Change-of-Law. Any rule, regulation, or other change mandated by any federal, state, or local authority which may interfere with or adversely affect Company's rights, obligations, or intended benefit under the Agreement shall entitle Company to, at its option, renegotiate or terminate the Agreement."

In the event of any inconsistencies between the terms and conditions contained in the Agreement and the terms and conditions contained herein, the terms and conditions contained herein shall control. Attachment: Sixteenth Section Lease - Commercial Lease from Pearl Public School District to Bureau of Land Management (16793 : Request

WITNESSETH:

That, for the term and in consideration of the rentals hereinafter set forth, and the covenants, conditions, and obligations to be observed and performed by GOVERNMENT, and by the authority and under the direction of the LESSOR, as recorded in Minute Book _____, Page _____, LESSOR does hereby lease and rent unto GOVERNMENT the following described land (hereinafter the "Leased Premises") to-wit:

Approximately **84,506** square feet of land, or **1.94** Acres, and a structure containing approximately **9,700** rentable square feet of warm, lit, finished shell for multiple uses including training room, office space, break area, showers, restrooms, equipment lockers, fire cache and covered parking for crew carriers and shop area located at **3405 Hwy 80 E, Pearl, MS 39208, Pearl, MS** (Leased Premises), in support of the GOVERNMENT'S Interagency Hotshot Crew.

NE ¼ of the NW ¼ of Section 16, Township 5 North, Range 2 East, Choctaw Meridian, Rankin County, Mississippi, and more particularly depicted in **Exhibit A: Legal Description and Aerial View of Leased Premises**.

LESSOR shall provide a warm-lit space in the front office area, complete with painted, finished surfaces and floor coverings, including restrooms, in accordance with National and Local codes on the Leased Premises.

LESSOR hereby agrees to construct, and GOVERNMENT agrees to reimburse LESSOR in an amount to be identified and agreed to in a separate Lease Amendment, the Tenant Improvements depicted in **Exhibit B: Additional LESSOR Constructed Tenant Improvements** and more specifically identified in the referenced Lease Amendment.

GOVERNMENT is granted exclusive use of the vehicle parking, access as necessary for ingress and egress to the Leased Premises for training and support activities related to Hotshot wildland fire suppression and logistical support operations.

1. **Term:** Subject to the other provisions herein contained, the term of this Lease Agreement shall be for Twenty (20) years, beginning the **1st day of September 2021**, and ending on the **31st day of August 2041** (called the "primary term"). For purposes of this Lease Agreement the Anniversary Date shall be September1 of each year.

It is expressly agreed and understood by all the parties hereto that part of the consideration given for the execution and delivery of this instrument is the option hereby granted to GOVERNMENT to renew this Lease Agreement for an additional or "secondary term" up to twenty-five (25) years from, September 1, 2041, under the same terms, conditions, and stipulations set forth herein, except the annual rental shall be based upon the fair market value of the land, excluding buildings and improvements not then owned by LESSOR, as determined by a qualified appraiser

Attachment: Sixteenth Section Lease - Commercial Lease from Pearl Public School District to Bureau of Land Management (16793 : Request

selected by LESSOR hereto who performs his appraisal not more than twelve months and not less than three months prior to the expiration of the primary term. GOVERNMENT may exercise said option to renew for the secondary term up to twenty-five (25) years by notifying LESSOR in writing no less than twelve (12) months in advance of the expiration. The cost of the new appraisal will be included in the option period rental amount. A new lease may be executed to effectuate the secondary term.

2. Annual Rent: Rental payments referenced herein are issued in accordance with H.R. 7608, Public Law 116-444, Wildland Fire Management Continuing Appropriations Act, 2021.

A. GOVERNEMENT shall pay LESSOR an annual rent payment of **$28,500.00** in advance for the Leased Premises.

B. Rent shall be an annual payment, paid in advance. Rent for a period of less than a year shall be prorated. In the event GOVERNMENT exercises its option to terminate, rentals received shall be prorated to coincide with the termination date.

C. Rents shall be adjusted annually pursuant to the rent adjustment clause contained in Paragraph 3 of this Lease Agreement.

D. Rent shall be made payable through the Automated Clearing House (ACH) payment system to LESSOR according to LESSOR'S data in the System for Award Management (SAM).

3. Rent Adjustment:

(a) Beginning with the second year of this Lease Agreement and each year thereafter, Government shall pay adjusted annual rent. The amount of adjustment will be determined by multiplying each year's annual rental rate by the percent of change of the Cost of Living Index. The percent change will be computed by comparing the index figure published for the month prior to the Lease commencement date with the index figure published for the month that begins each successive 12-month period. For example, a lease that commences in September of 2011 would use the index published for August of 2012, to determine the amount of increase for the first anniversary year of the lease (the difference between the index in August 2011 and the index of August of 2012). The following year, the index published for August of 2013 would be used, subtracting the previous year's index for August of 2012 and so on, to determine the percent change due each year.

(b) In the event of a decrease in the CPI (which is determined in the same manner as an increase) occurring during the term of occupancy under the Lease Agreement, the rent will remain the same as the previous year.

4. Termination: GOVERNMENT has the following termination rights:

A. Termination shall require 365 days' written notification to the other party.

LESSOR _____ GOVERNMENT _____

Attachment: Sixteenth Section Lease - Commercial Lease from Pearl Public School District to Bureau of Land Management (16793 : Request

B. Rent for a period of less than a year shall be prorated. In the event GOVERNMENT exercises its option to terminate, advanced rentals received shall be prorated to coincide with the termination date.

C. Said notice shall be computed commencing with the day after the date of mailing.

5. Utilities:

A. GOVERNMENT shall have access to the Leased Premises at all times without additional payment.

B. GOVERNMENT will pay for all utilities and services, including water, sewer, garbage, telephone, telecommunications, cable, television, gas, snow removal, janitorial and electrical service.

C. As part of the rental consideration, LESSOR shall ensure that all utilities, including but not limited to water, sewer, garbage, telecommunications, gas and electrical service necessary for operation are available for use on the Leased Premises.

D. LESSOR shall provide separate meters for utilities to be paid by GOVERNMENT and will provide written verification of the meter numbers and certification that these meters measure the GOVERNMENT's usage only. Proration is not permissible.

E. LESSOR shall have a designated representative available to promptly address all utility deficiencies.

6. Tenant Improvements: GOVERNMENT hereby agrees to reimburse LESSOR with a one-time lump sum payment not to exceed **$41,415.60** for the below listed GOVERNMENT requested alterations upon the completion, inspection, and acceptance of alterations by Bart Kicklighter, BLM State Fire Management Officer. GENERAL CLAUSES

(Acquisition of Leasehold Interests in Real Property for Leases at or Below the Simplified Lease Acquisition Threshold - SLAT)

1. MAINTENANCE OF THE PROPERTY; RIGHT TO INSPECT (SIMPLIFIED) (APR 2015)

The Lessor shall maintain the Property, including the Building, Building systems, and all equipment, fixtures, and appurtenances furnished by the Lessor under this Lease, in good repair and tenantable condition. Upon request of the Lease Contracting Officer (LCO), the Lessor shall provide written documentation that Building systems have been properly maintained, tested, and are operational within manufacturer's warranted operating standards. The Lessor shall maintain the Premises in a safe and healthful condition according to applicable OSHA standards, including standards governing indoor air quality, existence of mold and other biological hazards, presence of hazardous materials, etc. The Government shall have the right, at any time after the Lease is signed and during the term of the Lease, to inspect all areas of the Property to which access is necessary for the purpose of determining the Lessor's compliance with this clause.

2. If the building is partially or totally destroyed or damaged by fire or other casualty so that the leased space is untenantable as determined by the Government, the Government may terminate the lease upon 15 calendar days written notice to the Lessor and no further rental will be due.

3. The Lessor shall maintain the demised premises, including the building, building systems, and all equipment, fixtures, and appurtenances furnished by the Lessor under this lease, in good repair and tenantable condition. Upon request of the Contracting Officer, the Lessor shall provide written documentation that building systems have been maintained, tested, and are operational.

4. DEFAULT BY LESSOR (APR 2012)

A. The following conditions shall constitute default by the Lessor, and shall give rise to the following rights and remedies for the Government:

(1) Prior to Acceptance of the Premises. Failure by the Lessor to diligently perform all obligations required for Acceptance of the Space within the times specified, without excuse, shall constitute a default by the Lessor. Subject to provision of notice of default to the Lessor, and provision of a reasonable opportunity for the Lessor to cure its default, the Government may terminate the Lease on account of the Lessor's default.

(2) After Acceptance of the Premises. Failure by the Lessor to perform any service, to provide any item, or satisfy any requirement of this Lease, without excuse, shall constitute a default by the Lessor. Subject to provision of notice of default to the Lessor, and provision of a reasonable opportunity for the Lessor to cure its default, the Government may perform the service, provide the item, or obtain satisfaction of the requirement by its own employees or contractors. If the Government elects to take such action, the Government may deduct from rental payments its costs incurred in connection with taking the action. Alternatively, the Government may reduce the rent by an amount reasonably calculated to approximate the cost or value of the service not performed, item not provided, or requirement not satisfied, such reduction effective as of the date of the commencement of the default condition.

Attachment: Sixteenth Section Lease - Commercial Lease from Pearl Public School District to Bureau of Land Management (16793 : Request

(3) Grounds for Termination. The Government may terminate the Lease if:

(i) The Lessor's default persists notwithstanding provision of notice and reasonable opportunity to cure by the Government, or

(ii) The Lessor fails to take such actions as are necessary to prevent the recurrence of default conditions,

and such conditions (i) or (ii) substantially impair the safe and healthful occupancy of the Premises, or render the Space unusable for its intended purposes.

(4) Excuse. Failure by the Lessor to timely deliver the Space or perform any service, provide any item, or satisfy any requirement of this Lease shall not be excused if its failure in performance arises from:

(i) Circumstances within the Lessor's control;

(ii) Circumstances about which the Lessor had actual or constructive knowledge prior to the Lease Award Date that could reasonably be expected to affect the Lessor's capability to perform, regardless of the Government's knowledge of such matters;

(iii) The condition of the Property;

(iv) The acts or omissions of the Lessor, its employees, agents or contractors; or

(v) The Lessor's inability to obtain sufficient financial resources to perform its obligations.

(5) The rights and remedies specified in this clause are in addition to any and all remedies to which the Government may be entitled as a matter of law.

5. INTEGRATED AGREEMENT (JUN 2012)

This Lease, upon execution, contains the entire agreement of the parties and no prior written or oral agreement, express or implied, shall be admissible to contradict the provisions of the Lease. Except as expressly attached to and made part of the Lease, neither the Request for Lease Proposals nor any pre-award communications by either party shall be incorporated in the Lease.

6. CHANGES (SIMPLIFIED) (SEP 2011)

A. The LCO may at any time, by written order, direct changes to the TIs within the Space, Building Security Requirements, or the services required under the Lease.

B. If any such change causes an increase or decrease in Lessor's costs or time required for performance of its obligations under this Lease, whether or not changed by the order, the Lessor shall be entitled to an amendment to the Lease providing for one or more of the following:

1. An adjustment of the delivery date;
2. An equitable adjustment in the rental rate; or

Attachment: Sixteenth Section Lease - Commercial Lease from Pearl Public School District to Bureau of Land Management (16793 : Request

3. A lump sum equitable adjustment.

C. The Lessor shall assert its right to an amendment under this clause within **30 days** from the date of receipt of the change order and shall submit a proposal for adjustment. Failure to agree to any adjustment shall be a dispute under the Disputes clause. However, the pendency of an adjustment or existence of a dispute shall not excuse the Lessor from proceeding with the change, except the Lessor shall not be obligated to comply with such order or direction if the adjustment to which it is entitled causes the annual rent (net of operating costs) to exceed the Simplified Lease Acquisition Threshold established under GSAR 570.102.

D Absent a written change order from the LCO, or from a Government official to whom the LCO has explicitly delegated in writing the authority to direct changes, the Government shall not be liable to Lessor under this clause.

7. COMPLIANCE WITH APPLICABLE LAW (JAN 2011)

Lessor shall comply with all Federal, state and local laws applicable to its ownership and leasing of the Property, including, without limitation, laws applicable to the construction, ownership, alteration or operation of all Buildings, structures, and facilities located thereon, and obtain all necessary permits, licenses and similar items at its own expense. The Government will comply with all Federal, state and local laws applicable to and enforceable against it as a tenant under this Lease, provided that nothing in this Lease shall be construed as a waiver of the sovereign immunity of the Government. This Lease shall be governed by Federal law.

ACT1 (Small Construction) Introduction:

Narrative Requirements:

Condition No.	Condition
T-1	INTRODUCTION:

The Small Construction General Permit (SCGP) authorizes storm water discharges from construction activities disturbing one (1) acre to less than five (5) acres, or less than one acre if part of a "larger common plan of development or sale," where the total acreage is based on cumulative planned disturbance of less than 5 acres. Construction activities and construction activities part of a "larger common plan of development or sale" disturbing five acres or greater are regulated under the Large Construction General Permit.

Storm water discharges that enter waters of the state or storm water conveyance systems leading to waters of the state are subject to regulation and compliance with the conditions set forth in this permit. This permit also authorizes storm water discharges from any other construction activity designated by the Executive Director based on the potential for contribution to an excursion of a water quality standard or for significant contribution of pollutants to waters of the state. Upon issuance by the Permit Board on Environmental Quality, this permit will replace the previous Small Construction General Permit which expired on March 31, 2018.

Small construction activity does not include routine maintenance that is performed to maintain the original line and grade, hydraulic capacity, and original purpose of the facility (for example, the maintenance of existing ditches, channels, or other similar storm water conveyances, as well as routine grading of existing dirt roads, asphalt overlays of existing roads, re-clearing of vegetation in a right-of-way, and other similar maintenance activities).

ACT2 (Small Construction) Permit Applicability and Coverage:

Narrative Requirements:

Condition No.	Condition
T-1	PERMIT AREA: The Small Construction General Permit covers all areas of the State of Mississippi. [11 Miss. Admin. Code Pt. 6, Ch. 1.]
T-2	COVERED DISCHARGES: (1) Discharges composed entirely of stormwater and allowable non-stormwater identified in T-5 of this ACT from small construction activities including clearing, grading, excavating and other land disturbing activities equal to or greater than one (1) acre and less than five (5) acres. These discharges are designated as small construction activities under the National Pollutant Discharge Elimination System (NPDES) stormwater program and are covered under this permit. Small construction activities disturbing less than one (1) acre are designated if: (A) The project is part of a larger common plan of development or sale with a cumulative planned disturbance of equal to or greater than one (1) acre and less than five (5) acres (for example, individual or commercial lots that are part of a subdivision or a commercial development that initially impacts less than one (1) acre but will ultimately exceed the one (1) acre threshold, or (B) The Executive Director of the Mississippi Department of Environmental Quality (MDEQ) designates the construction activity based on the potential for contribution to a violation of a water quality standard or for significant contribution of pollutants to waters of the State. [11 Miss. Admin. Code Pt. 6, Ch. 1.] (2) A project is eligible for coverage under this general permit for discharges of pollutants of concern to water bodies for which there is a Total Maximum Daily Load (TMDL) established or approved by the Environmental Protection Agency (EPA) if measures and controls are incorporated that are consistent with the assumptions and requirements of such TMDL. To be eligible for coverage under this general permit, the project must incorporate in the Storm Water Pollution Prevention Plan (SWPPP) and/or effluent limitation any conditions applicable to any discharge(s) necessary for consistency with the assumptions and requirements of such TMDL. If, after coverage issuance, a specific wasteload allocation is established that would apply to the project's discharge, the project must implement steps necessary to meet that allocation within three (3) months from the final TMDL approval date. MDEQ's approved TMDL list may be found at the link listed in paragraph (3) below. In addition, "Erosion Control, Sediment Control and Stormwater Management on Construction Sites and Urban Areas (Three Volumes)" identifies specific controls that may be used to address consistency with any applicable TMDLs. The manual can be found at our website, https://www.mdeq.ms.gov/water/surface-water/nonpoint-source-pollution-program/erosion-and-sediment-control-manual/

ACT2 (continued):

Narrative Requirements:

Condition No.	Condition
T-3	(3) A project is eligible for coverage under this general permit for discharges of storm water to impaired water bodies on MDEQ's 303(d) list, provided best management practices (BMPs) are employed that prohibit further impairment of the designated and/or existing beneficial uses in the receiving water body. To be eligible for coverage under this general permit, the owner/operator must indicate on the SCNOI that the project discharges to a 303(d) listed receiving water and incorporate appropriate BMPs in its SWPPP. MDEQ's 303(d) list of impaired water bodies may be found on MDEQ's website, www.mdeq.ms.gov
T-4	ALLOWABLE NON-STORM WATER DISCHARGES: Owner or operators are authorized for the following non-storm water discharges. Except for flows from firefighting activities, sources of non-storm water below that are combined with storm water discharges associated with construction activity must be identified in the Storm Water Pollution Prevention Plan (SWPPP). The SWPPP must identify and ensure the implementation of appropriate pollution prevention measures for the non-storm water component(s) of the discharge. A. Discharges from fire-fighting activities B. Fire hydrant flushings C. Water used to control dust D. Potable water sources including water line flushings E. Routine external building wash down that does not use detergents F. Pavement wash waters where spills or leaks of toxic or hazardous materials have not occurred (unless totally removed) and where detergents are not used G. Uncontaminated air conditioning or compressor condensate H. Uncontaminated ground water or spring water I. Foundation or footing drains where flows are not contaminated with process materials such as solvents J. Landscape irrigation K. Water used to wash vehicles, wheel wash water, and other wash waters where detergents are not used. [11 Miss. Admin. Code Pt. 6, Ch. 1.]
T-5	PROHIBITED NON-STORM WATER DISCHARGES: A. Wastewater from washout of concrete (unless managed by an appropriate control) B. Wastewater from washout and cleanout of stucco, paint, form release oils, curing compounds and other construction materials C. Fuels, oils, or other pollutants used in vehicle and equipment operation and maintenance D. Soaps or solvents used in vehicle and equipment washing E. Wastewater from sanitary facilities, including portable toilets F. Dewatering activities, including discharges from dewatering of trenches and excavations unless managed by BMPs. [11 Miss. Admin. Code Pt. 6, Ch. 1.].

ACT2 (continued):

Narrative Requirements:

T-6	THIS PERMIT DOES NOT AUTHORIZE:

(1) Discharges associated with construction activity that disturb five (5) or more acres that are covered under the Large Construction General Permit or that have been covered under an individual permit in accordance with ACT3, S-2 of this permit.

(2) Discharges from construction sites that the Executive Director determines will cause, or have reasonable potential to cause or contribute to, violations of water quality standards. Where such determinations have been made, the Mississippi Environmental Quality Permit Board (Permit Board) will contact the owner or operator. The Permit Board may determine that an individual permit application is necessary in accordance with ACT3, S-2 of this permit. However, the Permit Board may authorize coverage under this permit after appropriate controls and implementation procedures, designed to bring the discharges into compliance with water quality standards, have been included in the Storm Water Pollution Prevention Plan.

(3) Discharges to impaired receiving waters, unless the SWPPP specifically identifies Best Management Practices (BMPs) which ensure storm water will not cause or contribute to non-attainment of a water quality standard. In cases where the Permit Board becomes aware of potential impairment due to small construction activities, the Permit Board will require the submittal of the SWPPP in order to ascertain whether the selected BMPs are sufficient to comply with requirements of this permit or any other requirements of the Permit Board.

(4) Activities that will affect waters of the state, including wetlands, without obtaining the necessary U.S. Army Corps of Engineers' (COE) individual Section 404 permit or coverage under a COE nationwide or general permit. If a Small Construction Notice of Intent (SCNOI) is requested by the Permit Board, appropriate COE documentation must be included. [11 Miss. Admin. Code Pt. 6, Ch. 1.]

(5) Discharges that originate from the site after construction activities have been completed and the site has undergone final stabilization.

(6) Discharges of hazardous substances or oil resulting from an on-site spill.

(7) Discharges or discharge-related activities that are likely to jeopardize the continued existence of any species that is listed as endangered or threatened under the Endangered Species Act (ESA) or result in the adverse modification or destruction of habitat that is designated as critical under the ESA. Coverage under this permit is available only if the regulated entity's storm water discharges, allowable non-storm water discharges, and discharge-related activities are not likely to jeopardize the continued existence of any species that is listed as endangered or threatened ("listed") under the ESA or result in the adverse modification or destruction of habitat that is designated as critical under the ESA ("critical habitat"). Submission of a signed SCNOI, or County Utility Authority approval, if applicable, will be deemed to constitute the regulated entity's certification of eligibility. [40 CFR 122.49]

Submittal/Action Requirements:

Condition No.	Condition
S-1	HOW TO OBTAIN AUTHORIZATION: (1) If a Small Construction Notice of Intent (SCNOI) has not been requested by the Permit Board (SCNOI not submitted to MDEQ), Owners or operators are authorized to discharge storm water or allowable non-storm water associated with small construction activity under the terms and conditions of this permit upon commencement of small construction land disturbing activities (i.e., Construction may begin after the completion of the SCNOI and the development and implementation of the required Storm Water Pollution Prevention Plan (SWPPP)). (2) If a Small Construction Notice of Intent (SCNOI) has been requested by the Permit Board (SCNOI submitted to MDEQ). Owners or operators are authorized to discharge storm water or allowable non-storm water only after staff review and receipt of written notification of approval of coverage by the Permit Board Staff. Beginning December 21, 2020, applicants must submit the NOI electronically as required by 40 CFR 127.16 when requested by the Permit Board. [11 Miss. Admin. Code Pt. 6, Ch. 1.]
S-2	REQUIRING AN INDIVIDUAL PERMIT: Upon receipt of a SCNOI, the Permit Board may require an alternate permit. The Permit Board may require any owner or operator of land disturbing activities of equal to or greater than one (1) acre and less than five (5) acres to apply for and obtain an individual NPDES permit. Any interested person may petition the Permit Board to take action under this paragraph. The Permit Board may require any small construction owner or operator to apply for an individual NPDES permit only if the owner or operator has been notified in writing. This notice shall include reasons for this decision, an application form and a filing deadline. The Permit Board may grant additional time upon request. [11 Miss. Admin. Code Pt. 6, Ch. 1.]

S-1 SMALL CONSTRUCTION NOTICE OF INTENT (SCNOI):

Prior to the commencement of small construction activity, the owner or operator must complete a Small Construction Notice of Intent (SCNOI) provided at the end of this permit. The SCNOI and SWPPP described in ACT5 shall be submitted to the Mississippi Department of Environmental Quality (MDEQ) only upon request from MDEQ. However, the SCNOI and SWPPP must be maintained at the permitted site or locally available in case inspector review is necessary. Failure to complete a SCNOI prior to the commencement of construction activity or to submit a SCNOI when requested is a violation of State regulations. The SCNOI shall be retained by the owner or operator as required by ACT8, R-1 of this permit. Attachments to the SCNOI must include: A Storm Water Pollution Prevention Plan (SWPPP) and a U.S. Geological Survey quadrangle map or copy (only if required to be submitted to MDEQ) showing site location.

The owner(s) of the property and the operator(s) associated with the regulated construction activity on the property have joint and severable responsibility for compliance with the permit. Notwithstanding any permit condition to the contrary, the coverage recipient and any person who causes pollution of waters of the state or places waste in a location where they are likely to cause pollution, shall remain responsible under applicable federal and state laws and regulations, and applicable permits.

The SCNOI shall be signed in accordance with the provisions of ACT11, T-4 of this permit. [11 Miss. Admin. Code Pt. 6, Ch. 1.]

Submittal/Action Requirements:

Condition No.	Condition

S-1 **SWPPP DEVELOPMENT:**

A site-specific SWPPP shall be developed requiring the design, installation, implementation and maintenance of effective pollution prevention measures by each owner or operator subject to this permit. A SWPPP shall be prepared in accordance with sound engineering practices and shall identify potential sources of pollution, which may reasonably be expected to affect the quality of storm water discharges associated with construction activity. The SWPPP shall describe and ensure the implementation of specific best management practices for the project site, which will reduce pollutants in storm water discharges and assure compliance with the terms and conditions of this permit.

(1) The SWPPP shall be retained at the permitted site or locally available. A copy of the SWPPP must be made available to the MDEQ or MS4 inspectors for review at the time of an on-site inspection.

(2) BMPs shall be in place upon commencement of construction.

(3) The Executive Director of MDEQ or designee will notify the owner or operator whenever he/she becomes aware that the SWPPP does not meet the minimum requirements of this permit. After notification, the owner or operator shall amend the SWPPP, implement the changes and certify in writing to the Executive Director that the requested changes have been made. Unless otherwise provided by the Executive Director, the requested changes shall be made within 15 days.

(4) The owner or operator shall amend the SWPPP and implement the changes before there is a change in construction, operation, or maintenance, which may potentially affect the discharge of pollutants to waters of the state.

(5) The owner or operator shall amend the SWPPP and implement the necessary changes within 15 days if the SWPPP proves to be ineffective in controlling storm water pollutants including, but not limited to, significant sediment leaving the site and non-functioning BMPs.

T-2	**SWPPP CONTENT (continued):** (5) Minimize sediment discharges from the site. The design, installation and maintenance of erosion and sediment controls must address factors such as the amount, frequency, intensity and duration of precipitation, the nature of resulting storm water runoff, and soil characteristics, including the range of soil particle sizes expected to be present on the site; (6) Provide and maintain a 50-foot undisturbed natural buffer around waters of the United States; or provide and maintain an undisturbed natural buffer that is less than 50 feet and is supplemented by additional erosion and sediment controls which in combination achieves the sediment load reduction equivalent to a 50-foot undisturbed natural buffer. Direct storm water to vegetated areas and maximize storm water infiltration to reduce pollutant discharges, unless infeasible; (7) Minimize soil compaction and, unless infeasible, preserve topsoil; (8) Direct storm water to vegetated areas, brush barriers, silt fences, hay bales, etc. to aid in the filtration, infiltration, velocity reduction and diffusion of the discharge; (9) Transport runoff down steep slopes through lined channels or piping; (10) Minimize the amount of cut and fill, and soil compaction; and (11) Minimize off-site vehicle tracking of sediments. At a minimum, the controls must be in accordance with the standards set forth in the most current edition of the "Erosion Control, Sediment Control and Stormwater Management on Construction Sites and Urban Areas (Three Volumes)," or other recognized manuals of design as appropriate for Mississippi. The planning and design manual can be obtained by calling 601/961-5171 or may be found electronically on the MDEQ website, https://www.mdeq.ms.gov/water/surface-water/nonpoint-source-pollution-program/erosion-and-sediment-control-manual/.

T-3	SWPPP CONTENT (continued):

The number and type of BMPs included in the SWPPP must reflect the specific conditions of the construction site. An effective SWPPP includes a combination of BMPs that are designed to work together. A combination of BMPs is listed below and must be included as minimum components of a SWPPP.

(1) Vegetative Practices shall be designed to preserve existing vegetation where feasible and initiate vegetative stabilization measures after land disturbing activities. Such practices may include, but are not limited to, temporary seeding, permanent seeding, mulching, sod stabilization, vegetative buffer strips, tree protection and topsoil preservation.

Soil stabilization-vegetative stabilization measures must be initiated whenever any clearing, grading, excavating or other land disturbing activities have temporarily or permanently ceased on any portion of the site and will not resume for a period of fourteen (14) days or more. The appropriate temporary or permanent vegetative practices shall be implemented immediately. For the purpose of this permit, "immediately" is interpreted to mean no later than the next work day.

The following specific practices must be included, unless infeasible (see Definitions). If any of the following practices are deemed infeasible, written justification must be included in the SWPPP.

(A) Buffer zones (see Definitions) shall be maintained between land disturbing activities and water bodies.

(B) Topsoil should be stockpiled and used in areas that will be re-vegetated. When final grade is reached it should be distributed to a minimum depth of 2 inches on 3:1 slopes and 4 inches on flatter slopes.

(C) Heavy equipment use in areas to be re-vegetated should be avoided. If compaction cannot be avoided, the top 4 inches of the soil bed should be tilled before re-vegetation. Any necessary fertilizer or other soil amendments should be added during the tilling process.

(2) Structural practices shall divert flows from exposed soils, store flows or otherwise limit runoff from exposed areas. Such practices may include, but are not limited to, construction entrance/exit, silt fences, earth dikes, brush barriers, drainage swales, check dams, subsurface drains, pipe slope drains, level spreaders, drain inlet protection, outlet protection, detention/retention basins, sediment traps, temporary sediment basins or equivalent sediment controls. If a sedimentation basin is used, must be installed before initial site grading and utilize outlet structures that withdraw water from the surface and that are designed for a minimum 2-year, 24-hour storm event.

T-3	**SWPPP CONTENT (continued):**

The following specific practices must be included, unless infeasible (see Definitions). If any of the following practices are deemed infeasible, written justification must be included in the SWPPP.

(A) Steep Slopes (see Definitions) that cannot be avoided must have, at a minimum, silt fences or equivalent sediment controls for all down slope boundaries (and for those side slope boundaries deemed appropriate by individual site conditions), unless a sediment basin providing storage for a calculated volume of runoff from a 2-year, 24-hour storm or 3,600 cubic feet of storage per acre drained is provided.

(B) Construction entrances/exits (see Definitions) shall be installed wherever traffic will be leaving a construction site and moving directly onto a paved public road.

(C) Storm Drain Inlets-Inlets that could receive storm water from construction activities shall be protected by surrounding or covering with a filter material until final stabilization has been achieved.

(D) Perimeter Controls-Natural areas shall be maintained and supplemented with silt fence and fiber rolls around project perimeter. If not feasible to maintain natural areas, a silt fence or similar controls, such as fiber rolls, are sufficient.

(E) Phasing- Schedule or sequence construction activities so as to concentrate work in certain areas so as to minimize the amount of soil that is exposed at one time.

(3) Facilities discharging into impaired receiving waters (i.e., receiving stream segments which are listed on MDEQ's 303(d) List of Impaired Waters or segments for which a Total Daily Maximum Load (TMDL) has been approved) must identify the pollutant of concern(s) for the receiving stream in the SWPPP. If applicable, the SWPPP shall describe how the selected BMPs will ensure that discharges from the site will not cause or contribute to exceedance of the water quality standards in the receiving stream.

(4) A description of any post-construction control measures. Post-construction control measures should be installed, as necessary, to control pollutants in storm water after construction is complete. These controls include, but are not limited to, one or more of the following: on-site infiltration of runoff, flow attenuation using open vegetated swales, exfiltration trenches and natural depressions, constructed wetlands and retention/detention structures. Where needed, velocity dissipation devices shall be placed at detention or retention pond outfalls and along the outfall channel to provide for a non-erosive flow.

(5) Proposed responsible parties (original coverage recipient or new owner or operator) shall be identified for individual lots or out-parcels that are part of a larger common plan of development or sale. If permit responsibility is retained by the original coverage recipient, a narrative description of sediment and erosion controls for subdivision lots is acceptable. Out-parcels in commercial developments must be included in the scaled site map referenced below.

T-5	Housekeeping Practices:

The owner or operator shall design, install, implement and maintain practices appropriate to prevent pollutants from entering storm water from construction sites because of poor housekeeping. These practices must be listed in the SWPPP and located on the site map.

The owner or operator shall designate and report in the SWPPP areas for equipment maintenance and repair and concrete chute wash off; provide waste receptacles and regular collection of waste; provide adequately maintained sanitary facilities; provide protected storage areas for chemicals, paints, solvents, fertilizers, pesticides, herbicides, detergents and other potentially toxic materials; and implement spill and leak prevention practices and response procedures if spills and leaks do occur; minimize the exposure of building materials, building products, construction wastes, trash and landscape materials. These areas and specific potential pollutants shall be addressed in the SWPPP and located on the scaled site map.

The owner or operator shall provide a description of procedures for:

(A) Sweeping or removal of sediment and other debris that has been tracked from the site or deposited from the site onto streets and other paved surfaces;
(B) Removal of sediment or other pollutants that have accumulated in or near any sediment control measures, storm water conveyance channels, storm drain inlets, or water course conveyance within the construction site, and;
(C) Removal of accumulated sediment that has been trapped by sediment control measures at the site, in accordance with applicable maintenance requirements covered under this permit.

The owner or operator shall also provide a description of the procedures for handling and disposing of wastes generated at the site, including, but not limited to, clearing and demolition debris, sediment removed from the site, construction and domestic waste, hazardous or toxic waste, and sanitary waste. T-10	Maintenance and Weekly Inspections: The SWPPP shall describe procedures to maintain vegetation, erosion and sediment controls and other protective measures. Procedures shall provide that all controls and outfalls/discharge points are inspected weekly for a minimum of four inspections per month in accordance with ACT6, S-4. Any poorly functioning erosion controls or sediment controls, non-compliant discharges, or any other deficiencies observed during the inspections required under this permit shall be corrected as soon as possible, but not to exceed 24 hours of the inspection unless prevented by unsafe weather conditions as documented on the inspection form. In the event of an unanticipated breach of a sediment basin/pond temporary containment measures shall be taken within 24 hours after the inspection. Permanent corrective measures shall be implemented within five (5) days of the inspection; however, if permanent corrective measures cannot be implemented within the timeframes provided herein the owner or operator shall contact MDEQ. [11 Miss. Admin. Code Pt. 6, R. 1]
T-11	Non-Storm Water Discharge Management: The SWPPP must identify all allowable sources of non-storm water discharges listed in ACT2, T-5, except for flows from actual firefighting activities, which are combined with storm water discharges associated with large construction activity. Non-storm water discharges should be eliminated or reduced to the extent feasible. Wash waters must be treated in a sediment basin or alternate control that provides equivalent or better treatment prior to discharge. The SWPPP must identify and ensure the implementation of appropriate Best Management Practices (BMPs) for the non-storm water component of the discharge.

ACT6 (Small Construction) Implementation and Inspection Requirements:

Submittal/Action Requirements:

Condition No.	Condition
S-1	SWPPP IMPLEMENTATION REQUIREMENTS:

The coverage recipient shall:

(1) Implement the site-specific SWPPP and retain a copy of the SWPPP at the permitted site. In cases where there is no office or shelter to maintain documents onsite, the SWPPP can be kept locally available (i.e., able to be produced within an hour of being requested by a state or local inspector). Failure to implement the SWPPP is a violation of permit requirements. A copy of the SWPPP must be made available to state or local inspectors for review at the time of an on-site inspection.

(2) Implement the following pre-construction activities:

(A) Mark off areas of "disturbance", "no disturbance" (i.e. buffer zone), and "sensitive areas" (i.e., delineate and clearly flag or mark off areas such as steep slopes, wetlands, perennial streams and adjacent water bodies, or other sensitive areas),

(B) Preserve native topsoil on the site to the extent feasible, and

(C) Limit construction stream crossings to the minimum necessary to provide access for the construction project.

(3) Ensure that appropriate Best Management Practices (BMPs) are in place upon commencement of construction.

(4) Amend the SWPPP whenever there is a change in design, construction, operation, or maintenance which may potentially affect the discharge of pollutants to waters of the State; or the SWPPP proves to be ineffective in controlling storm water pollutants. The amended SWPPP shall be submitted within thirty (30) days of amendment.

(5) Amend the SWPPP if notified at any time by the Executive Director of the MDEQ that the SWPPP does not meet the minimum requirements. Coverage recipient shall certify in writing to the Executive Director that the requested changes have been made. Unless otherwise provided, the requested changes shall be made within fifteen (15) days.

S-2	SWPPP IMPLEMENTATION REQUIREMENTS (continued):
	(6) Install needed erosion controls even if they may be located in the way of subsequent activities, such as utility installation, grading or construction. It shall not be an acceptable defense that controls were not installed because subsequent activities would require their replacement or cause their destruction.
	(7) Install additional and/or alternative erosion and sediment controls when existing controls prove to be ineffective in preventing sediment from leaving the site.
	(8) Comply with applicable State or local waste disposal, sanitary sewer or septic system regulations.
	(9) Erosion and sediment controls shall be maintained at all times. Except for sediment basins, all accumulated sediment shall be removed from structural controls when sediment deposits reach one-third to one-half the height of the control. For sediment basins, accumulated sediment shall be removed when the capacity has been reduced by 50%. All removed sediment deposits shall be properly disposed. Non-functioning controls shall be repaired, replaced or supplemented with functional controls within twenty-four (24) hours of discovery or as soon as field conditions allow.
	(10) If, after coverage issuance, a specific wasteload allocation is established that would apply to the facility's discharge, the facility must implement steps necessary to meet that allocation.
S-3	SWPPP COMPLIANCE WITH LOCAL STORM WATER ORDINANCES:
	(1) In addition to the requirements of this permit, the SWPPP shall be in compliance with all local storm water ordinances.
	(2) When storm water discharges into a Municipal Separate Storm Sewer System (MS4), the owner or operator must make the SWPPP available to the municipal authority upon request.

S-4	INSPECTION REQUIREMENTS:

Inspection of all receiving streams (if feasible), outfalls, erosion and sediment controls and other SWPPP requirements shall be performed during permit coverage using a copy of the form provided in the general permit by qualified personnel (see Definitions).

(1) after rain events that produce a discharge and at least weekly for a minimum of four inspections per month; and

(2) As often as is necessary to ensure that appropriate erosion and sediment controls have been properly constructed and maintained and to determine if additional or alternative control measures are required.

Before conducting the site inspection, the inspector should review Chapter 4, Inspector's Checklist and Troubleshooting Chart found in MDEQ's Field Manual for Erosion and Sediment Control on Construction Sites in Mississippi, available online at our website, https://www.mdeq.ms.gov/permits/environmental-permits-division/types-of-general-permits/

MDEQ strongly recommends that coverage recipients perform a "walk through" inspection of the construction site daily to ensure controls are in place and will function properly. [11 Miss. Admin. Code Pt. 6, Ch. 1.]

R-2	DOCUMENTATION OF INSPECTIONS: All inspections required by ACT6, S-4 of this permit must be documented on the Inspection and Certification Form provided at end of this permit. The form must be certified according to the signatory requirements outlined in ACT11, T-4, T-5 and T-6 of this permit. Documentation must include the day and time the inspection was performed, who performed the inspection, any deficiencies noted, and corrective action needed. Documentation of all inspections must be kept with the SWPPP. Inspections must continue until such time that planned construction activities have been completed, land disturbing activities have ceased and disturbed areas have been stabilized with no significant erosion occurring. To satisfy this requirement for linear projects, inspections may be conducted at representative locations for portions of the project that have been completed and stabilized.

Upon successful completion of all permanent erosion and sediment controls, inspections and reporting requirements are no longer required. The owner or operator must record the date of completion of all permanent erosion and sediment controls on the final inspection report. (2) If a SCNOI has been requested by the Permit Board (SCNOI submitted to MDEQ). T-11	**TRANSFERS:** Coverage under this permit is not transferable to any person except after notice to and approval by the Permit Board. The Permit Board may require the coverage recipient to obtain another NPDES permit. Transfer of coverage requests shall be submitted to the Permit Board using the form provided at the end of this permit.
T-12	**PROPER OPERATION AND MAINTENANCE:** The owner or operator shall at all times properly operate and maintain all facilities and systems of treatment and control (and related appurtenances) which are installed or used by the owner or operator to achieve compliance with the conditions of this permit, including the Storm Water Pollution Prevention Plan. Proper operation and maintenance includes adequate laboratory controls with appropriate quality assurance procedures and requires the operation of backup or auxiliary facilities when necessary to achieve compliance with permit conditions. [11 Miss. Admin. Code Pt. 6, Ch. 1.]
T-13	**BYPASS PROHIBITION:** Bypass (see 40 CFR 122.41(m)) is prohibited and enforcement action may be taken against an owner or operator for a bypass, unless: a) The bypass was unavoidable to prevent loss of life, personal injury, or severe property damage; b) There were no feasible alternatives to the bypass, such as the use of auxiliary treatment facilities, retention of untreated wastes, or maintenance during normal periods of equipment downtime. This condition is not satisfied if the owner or operator should, in the exercise of reasonable engineering judgment, have installed adequate backup equipment to prevent a bypass which occurred during normal periods of equipment downtime or preventive maintenance; and c) The owner or operator submitted notices per ACT 11, T-17 and/or T-18.

T-14	UPSET CONDITIONS:

An upset is an exceptional incident in which there is unintentional and temporary noncompliance. An upset (see 40 CFR 122.41(n)) constitutes an affirmative defense to an action brought for noncompliance with technology-based permit limitations if a coverage recipient shall demonstrate, through properly signed, contemporaneous operating logs, or other relevant evidence, that: 1) An upset occurred and the coverage recipient can identify the specific cause(s) of the upset, 2) The permitted facility was at the time being properly operated, 3) The coverage recipient submitted notices per ACT 11, T-17 and/or T-18 and 4) The coverage recipient took remedial measures as required under ACT 11, T-2. In any enforcement proceeding, the coverage recipient has the burden of proof that an upset occurred. No determination made during administrative review of claims that noncompliance was caused by upset, and before an action for noncompliance, is final administrative action subject to judicial review.

T-15 RELEASE REPORTING:

Releases into the environment of hazardous substances, oil, and pollutants or contaminants, which pose a threat to applicable water quality standards or causes a film, sheen or discoloration of State waters, shall be reported to the:

- Mississippi Emergency Management Agency (601) 933-6362 or (800) 222-6362; or
- National Response Center (800) 424-8802. [11 Miss. Admin. Code Pt. 6, Ch. 1.]

T-16 NONCOMPLIANCE REPORTING:

(1) Anticipated Noncompliance. The owner or operator shall give at least 10 days advance notice, if possible, before any planned noncompliance with permit requirements. Giving notice of planned or anticipated noncompliance does not immunize the owner or operator from enforcement for that noncompliance.

(2) Unanticipated Noncompliance. The owner or operator shall notify the MDEQ orally within 24 hours from the time he or she becomes aware of unanticipated noncompliance. A written report shall be provided to the MDEQ within five (5) working days of the time he or she becomes aware of the circumstances. The report shall describe the cause, the exact dates and times, steps taken or planned to reduce, eliminate, or prevent reoccurrence and, if the noncompliance has not ceased, the anticipated time for correction.

T-18	PERMIT ACTIONS: This permit may be modified, revoked and reissued, or terminated for cause. A request by the owner or operator for permit or coverage modification, revocation and reissuance, or termination, or a certification of planned changes or anticipated noncompliance does not stay any permit condition. [11 Miss. Admin. Code Pt. 6, Ch. 1.]

(2) Except as provided in permit conditions on "Bypassing" and "Upsets", nothing in this permit shall be construed to relieve the coverage recipient from civil or criminal penalties for noncompliance.

(3) It shall not be the defense of the coverage recipient in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit. [11 Miss. Admin. Code Pt. 6, Ch. 1.]

ACT11 (Small Construction) Definitions:

Narrative Requirements:

Condition No.	Condition
T-1	BEST MANAGEMENT PRACTICES (BMPs) means schedules of activities, prohibitions of practices, maintenance procedures, and other management practices to prevent or reduce the discharge of pollutants to waters of the United States. BMPs also include treatment requirements, operating procedures, and practice to control plant site runoff, spillage or leaks, sludge or waste disposal, or drainage from raw material storage. [11 Miss. Admin. Code Pt. 6, Ch. 1.]
T-2	BUFFER ZONE, as used in this permit, means a strip of dense undisturbed perennial vegetation, either original or reestablished, that borders perennial streams and rivers, ponds, lakes, wetlands, etc. Buffer zones are established for the purposes of slowing water runoff, enhancing water infiltration, and minimizing the risk of any potential nutrients or pollutants from leaving the upland area and reaching surface waters. Buffer zones are most effective when storm water runoff is flowing into and through the buffer zone as shallow sheet flow, rather than in concentrated form such as in channels, gullies, or wet weather conveyances. Therefore, it is critical that the design of any development include management practices, to the maximum extent practical, that will result in storm water runoff flowing into and through the buffer zone as shallow sheet flow.
T-3	CFR means the Code of Federal Regulations.
T-4	COMMENCEMENT OF CONSTRUCTION ACTIVITIES means the initial disturbance of soils associated with clearing, grading, grubbing, or excavating activities or other construction-related activities. [11 Miss. Admin. Code Pt. 6, Ch. 1.]
T-5	COMPACTION means the process by which the soil grains are rearranged to decrease void space and bring the grains into closer contact with one another and thereby increase the weight of solid material per cubic foot.
T-6	CONSTRUCTION ACTIVITY as used in this permit, includes construction activity as defined in 40 CFR part 122.26(b)(14)(x). This includes a disturbance to the land that results in the change in topography, existing soil cover (both vegetative and non-vegetative), or the existing topography that may result in accelerated storm water runoff, leading to soil erosion and movement of sediment into surface waters or drainage systems. Examples of construction activity may include clearing, grading, grubbing, filling and excavating. Construction activity does not include routine maintenance that is performed to maintain the original line and grade, hydraulic capacity, or original purpose of the site. [11 Miss. Admin. Code Pt. 6, Ch. 1.]
T-7	CONSTRUCTION ENTRANCE/EXIT is a stone-base pad designed to provide a buffer area where mud-and caked-soil can be removed from the tires of vehicles to avoid transporting it onto public roads. This practice applies anywhere traffic will be leaving a mining site and moving directly onto a paved public road or street.
T-8	CONTROL MEASURE as used in this permit, refers to any Best Management Practice or other method used to prevent or reduce the discharge of pollutants to waters of the State. [11 Miss. Admin. Code Pt. 6, Ch. 1.]
T-9	CLEAN WATER ACT (CWA) refers to the Federal Water Pollution Control Act, 33 U.S.C. section 1251 et seq.

DETAIL EXPLANATION OF NECESSITY OF WORK INVOLVED: The work is needed to help reduce vehicular accidents at the intersection of Northshore Parkway and Lakeshore Drive. Vehicles traveling on Lakeshore Drive that attempt to cross Northshore Parkway into a local shopping center and vehicles traveling on traveling on Lakeshore Drive attempting to make a left hand turn onto Northshore Parkway have caused several accidents over the past five years. The construction of these islands is to prevent left hand turn and crossover traffic from Lakeshore Drive.

Mr. Jared Morrison
Rankin County Board of Supervisors
211 E Government St A
Brandon, MS 39042

Dear Mr. Morrison and Rankin County Board of Supervisors:

Each year the Rankin County Board of Supervisors is so gracious to sponsor and support the many programs and activities of the schools throughout our county. We so appreciate this support and, like you, recognize that strong schools like the ones we are blessed with in Rankin County, are a foundation of a healthy, thriving community. Thank you for your continued support!

As you know, each year parents of Florence High School seniors plan and host a Grad Night event to provide a safe and healthy celebration of this important life milestone for our children. The Board of Supervisors has always been so generous in supporting this event and we again ask for your financial support for the FHS Class of 2022 Grad Night event.

As part of our planning for the event, we intend to recognize the event sponsors on signage at the event that night and on the design for the shirts that will be given to each attendee (students and parent volunteers). In addition, as business and organization donations are received, our planning committee will submit press releases to *Rankin County News* and *The Florence News* for inclusion in their printed publications and online social media.

Thank you for your consideration of our request and for your long-time, generous support of our students and all students in Rankin County. Please let us know if you have any questions or need additional information. We may be reached at 601-506-7148 (Alison) or 601-573-1143 (Dre').

Sincerely,

Alison Blanton
