Agreement Terms and Conditions

1. Definition
"Software Applications" are the computer programs explicitly listed above in the section titled "Software Products" and those indicated using initials by the Purchaser in the section title "Software Options".

2. Payment Terms
Order will be processed with the return of signed contract and an initial payment of 50% of the total software, professional services, hardware, and customizations as outlined above. Orders will not be processed until both requirements are satisfied.

Professional Services and any additional applicable travel and lodging expenses, shall be billed monthly as the work is performed.

State Taxes are applicable on prices listed. If the Purchaser is Tax Exempt, a Tax Exemption Certificate must be provided with this signed Contract.

3. Delivery Schedule
The parties will agree upon an appropriate training, project, and delivery schedule based on, among other things, the modules in respect of which training is required and the skills and availability of both the Purchaser and Harris staff members.

4. Data Conversion
The success of a data conversion is based on the format and quality of the input data. Unless otherwise indicated, conversion is strictly limited to non-dollar amounts. A typical utility billing conversion includes information such as names, addresses, phone numbers, and services. Only information explicitly listed in this document will be converted. Initial cost estimates for conversion are included in system pricing proposals but these are only estimates until inspections or sample data can be examined to verify data formats and data integrity. Only then can accurate conversion costs be established.

Wherever possible, the data extraction shall be done twice. The first extraction is to test and create the conversion tools. The second extraction is done when the implementation is ready to go live.

In the event a data re-conversion is required, for whatever reason, Purchaser will be billed at normal professional service rates.

60 Day Integrity Window - it is our goal to get your data right, thus you as a client have 60 days from the first day of their Go Live to review data for any discrepancies. Items not contained within their source data are excluded. All items found after this 60-day window will be changed at a minimum charge of $350.00.

5. Maintenance and Support Fees
Maintenance and Support fees ("MSF") include all program updates, enhancements and general releases that Harris makes available to the Purchaser as part of its regular software maintenance program. MSF does not include fees for any third-party licenses or Harris services that may be necessary to perform a third-party license upgrade. MSF also includes access to the Harris support hot line.

Attachment: Annual Computer Software Support Agreement with Delta Computer Systems for Monthly Maintenance & Support for Land

The initial maintenance amount will be billed on Discovery, which represents the start of services and the ability to obtain support. Payment is due upon receipt of invoice. Harris reserves the right to change maintenance and support fees.

Subsequent years' MSF shall be rendered at the beginning of each year in which services are to be furnished. Lapses in annual MSF and/or balances not paid over sixty (60) days will be monitored and will lead to denial of support, and upgrade privileges. In the event of a lapse, Purchaser will be subject to reactivation fees not to exceed 40% of the current annual MSF applied to each year of the lapse including partial year lapses plus the amount representing "the lapsed" MSF. The specific services provided by the technical support staff are outlined in the Harris Software Support Agreement Standard Guidelines.

6. Additional Customization(s)
The Purchaser and Harris have jointly reviewed the Software Applications and have determined that all items are adequate except as noted in the CUSTOMIZATIONS section. Additional customization(s) or report modifications not identified in this Agreement will be quoted as requested and billed at the hourly rate of $175.00. Customizations and/or report modifications requested one year or more from the date of this agreement will be billed at the then current Harris hourly rate. No additional customizations will be undertaken without prior agreement by both parties on cost, scope of functionality, and the impact on the project schedule.
Twenty-two percent of any fees associated with any customization services will automatically be added to the Purchaser's MSF.

7. Forms
Purchaser agrees to use standard forms unless otherwise indicated. If purchaser does not order forms from Harris, forms must be approved by Harris Project Manager (named below in Section 15) before ordering. A Change Order may be issued to purchaser by Harris for any report modifications, which will be billed at a rate of one hundred-seventy-five dollars ($175.00) per hour.

RE: Emergency Road and Bridge Repair (ERBR) Executed MOA for Bridge Number(s) SA6100000000013

Dear Mr. Gaines:

Thank you for submitting the ERBR Memorandum of Agreement (MOA) and the appropriate approval identifying the Engineer of Record for your project. Please find enclosed your fully executed copy of the MOA for the above referenced project.

If preconstruction funds were awarded, the Local Public Agency (LPA) will receive the initial distribution detailed in the MOA with the remaining funds to be deposited once the low bid has been awarded and the Final Payment Checklist is received. Once the deposit of ERBR Funds has occurred, please transfer the funds to the separate account or sub-account as outlined in the MOA.

If your project does not have an initial distribution, you will need to complete and submit the ERBRF Final Payment Checklist and return to our office before the award amount is deposited into the account or sub-account set up as described in the MOA. Further guidance on this process can be found on the ERBRF website, https://mdot.ms.gov/portal/erbrf_2023.

We are excited about this program and working with you on these very important projects which will be beneficial to both your community and the entire state.

Sincerely,

Brad White

Enclosure

MEMORANDUM OF AGREEMENT
BETWEEN THE MISSISSIPPI TRANSPORTATION COMMISSION
AND Rankin County, Mississippi
Project No. ERBR-61(02)

This Memorandum of Agreement (the "Agreement") is entered into by and between the Mississippi Transportation Commission (the "Commission"), which executes its policies through the Executive Director of the Mississippi Department of Transportation ("MDOT"), whose address is 401 North West Street, Jackson, MS 39201, and Rankin County, Mississippi (the "Recipient") whose address is 211 E Government St., Suite A, Brandon, MS 39042. This Agreement shall become effective upon the date of latest execution shown below.

WHEREAS, the Mississippi Legislature has created a special fund known as the 2022 Emergency Road and Bridge Repair Fund (the "ERBRF") pursuant to Section 11of Senate Bill No. 2780, 2022 Regular Session; and

WHEREAS, the Mississippi Legislature appropriated additional funding to the credit of the 2022 Emergency Road and Bridge Repair Fund (the "ERBRF") pursuant to Section 4 of Senate Bill No. 3120, 2023 Regular Session; and

WHEREAS, pursuant to said statute, the State Fiscal Officer shall transfer sufficient amounts from the Capital Expense Fund to fund this program, and deposit the same into the said ERBRF; and

WHEREAS, the Mississippi Transportation Commission, acting through the Mississippi Department of Transportation has enacted rules pursuant to the Mississippi Administrative Procedures Act for the distribution of said funds; and

WHEREAS, the Recipient applied for and was chosen to receive a grant of funds for the replacement of bridge number(s) SA6100000000013 and other associated activities identified in the Recipient's application (the "Project") as approved by the Commission on July 25, 2023 (the "Award Date"); and

WHEREAS, it is understood by and between the parties that the Commission has no funds available to contribute to the Project other than those being provided through the ERBRF grant described below, and that the Recipient is solely responsible for any costs of the Project that exceed the amount of the ERBRF grant.

NOW, THEREFORE, in consideration of the promises and agreements of the parties hereto, as shown below, it is hereby agreed as follows:

ARTICLE I.
DUTIES AND RESPONSIBILITIES

A. **THE COMMISSION WILL:**

Attachment: Vardoc Executed MOU between the MS Transportation Commission & Rankin County for Emergency Road & Bridge Program

Provide funding for the Project identified in this Agreement in an amount not to exceed $870,794.14 according to the terms and conditions hereof.

If preconstruction activities were requested in the application and funds were not expended prior to the Award Date, transfer an initial installment of funds from the ERBRF in the amount of $59,036.89 to the governmental entity shown above who owns/sponsors the public road or bridge Project to be used for preconstruction activities.

Once preconstruction activities are complete and the Recipient has awarded a construction contract, transfer the remaining balance of the grant amount (not to exceed the amount needed to complete the Project). This transfer shall be made promptly after the award of the construction contract by the Recipient and after the required documents have been provided to MDOT.

The maximum engineering costs allowed to be paid from ERBRF grant monies shall be calculated based on a percentage of the successful construction bid amount. For projects requiring Preliminary Engineering (PE) and Construction Engineering and Inspection (CE&I), the maximum amount of the total engineering costs to be paid from the ERBRF shall be fifteen percent (15%) of the amount of the successful construction bid. For projects that do not require PE services, the maximum amount of engineering costs to be paid from the ERBRF for engineering costs shall be ten percent (10%) of the amount of the successful construction bid. The total amount allowed for PE and/or CE&I costs shall be the actual cost of these services, or the maximum amounts outlined above, whichever is less.

If the Project involves an existing or ongoing construction contract, transfer the grant amount (not to exceed the amount needed to complete the Project), after the required documents have been provided to MDOT. **Pursuant to Mississippi Code Section 65-1-179, under no circumstances shall Recipient use ERBRF monies to reimburse any amount that has been expended on the Project prior to the Award Date.**

B. **THE RECIPIENT (CITY/COUNTY) WILL:**

Execute and return this Agreement to MDOT by September 30, 2023.

Submit the appropriate approval (e.g., board order) identifying the Engineer of Record for the Project, who shall be a licensed Professional Engineer registered with the MS Board of Licensure for Professional Engineers and Surveyors, prior to the first transfer of funds.

Use the funds solely for the costs of the Project as defined in this Agreement

Attachment: Vardoc Executed MOU between the MS Transportation Commission & Rankin County for Emergency Road & Bridge Program

and upon the terms and provisions of this Agreement. Failure to adhere to any provision within the Agreement may result in immediate withdrawal of future funding and will require the return of all unexpended funds upon written demand from MDOT.

Maintain Emergency Road and Bridge Repair (ERBR) Funding in a separate account or sub-account for the Project identified in this Agreement, so that project funding and costs can be easily tracked. The Recipient must be enrolled in PayMode e-payment module prior to receiving ERBRF grant monies. The Recipient may request assistance enrolling by contacting www.mmrs.state.ms.us or by calling the MMRS Call Center at (601) 359-1343. MDOT uses Mississippi's Accountability System for Government Information and Collaboration (MAGIC), and payment shall be made, and remittance information provided electronically as directed by the State to the bank account of the Recipient's choice.

Make every effort to expend all funds by June 30, 2026. Should any projected deviation from this schedule arise, the Recipient agrees to notify MDOT in writing of the specific details of delay and request an extension as soon as the deviation becomes apparent. Should this request be denied, the Recipient will return any ERBRF monies in the amount determined by MDOT. **In the event a construction contract is not awarded by January 31, 2026, MDOT reserves the right to revoke the grant award and demand repayment of ERBR funds.** The Recipient agrees to promptly return any unexpended ERBRF monies for revoked awards as required by MDOT.

Secure all funding necessary to complete the Project and commit the same prior to or at the time of grant award. All funding associated with the selected ERBRF Project shall be secured prior to the award of the construction contract and shall not be dependent on any future grants or awards. All funding in excess of the ERBRF grant amount necessary to complete the Project is the sole responsibility of the Recipient. **Pursuant to Mississippi Code Section 65-1-179, under no circumstances shall Recipient use ERBRF monies to reimburse any amount that has been expended on the Project prior to the Award Date.**

Follow state law for procurement of professionals and letting of construction projects. Failure to follow state laws may result in withdrawal of grant funds. If any federal funds are used in conjunction with ERBR funds, all federal procurement laws must be followed.

Advertise construction projects in accordance with all applicable laws and, to the extent possible, make advertisements available to the Mississippi Association of General Contractors, Mississippi Road Builders' Association, and Mississippi Asphalt Pavement Association.

Maintain on file, the following items in relation to the Project and provide the same to MDOT upon request:

Attachment: Vardoc Executed MOU between the MS Transportation Commission & Rankin County for Emergency Road & Bridge Program

All expenditures of funds deposited from the ERBRF Program will be spent solely on costs directly associated with the Project as identified in this Agreement. Attachment: Vardoc Executed MOU between the MS Transportation Commission & Rankin County for Emergency Road & Bridge Program

The construction shall be in accordance with the latest version of the Mississippi Standard Specifications for State Aid Road & Bridge Construction or MDOT Standard Specifications for Road & Bridge Construction, including all addenda, whichever is appropriate.

The construction shall be in accordance with the latest version of the MDOT Construction Manual or the OSARC Construction Manual, whichever is appropriate.

Bridge design and load rating for bridge widening or rehabilitation shall be in accordance with the AASHTO Standard Specifications for Highway Bridges, 17th Edition.

For bridge projects, once the piling is driven and prior to placement of caps or superstructure, the Recipient must submit to MDOT and OSARC electronic documentation using MDOT or OSARC pile driving record forms showing that the piles have reached the pile bearing as detailed in the construction plans. Any piling driven shall achieve the desired minimum bearing capacity and minimum tip elevation.

Upon completion of projects containing bridge construction or rehabilitation, an Initial Inspection of the bridge is required in accordance the National Bridge Inspection Standards (NBIS) and with Section 4.2, AASHTO Manual (Incorporated by reference, see § 650.305 and § 650.317 of NBIS) for each new, replaced, rehabilitated, and temporary bridge as soon as practical, but within 3 months of the bridge opening to traffic.

Report upon Project progress as follows:

The Recipient agrees to provide quarterly reports and any required supporting documentation on a form prescribed by MDOT that summarize all work and expenditures on the Project since the last report. The quarterly report shall provide an updated schedule that has estimated dates for milestones and shall also provide a copy of the most recent bank statement of the separate account or sub-account used to maintain ERBR funding for the Project described in this Agreement. The first quarterly report shall include a bank statement showing proof of the first ERBRF proceed deposit. If the Recipient receives a second transfer from MDOT, the quarterly report immediately following this transfer shall also include a bank statement showing proof of the second ERBRF proceed deposit. The first quarterly report shall be provided within 30 days of the end of the next calendar quarter after the effective date of this Agreement and thereafter within 30 days after the end of each succeeding calendar quarter (i.e., March 30, June 30, September 30, and December 31). Failure to provide required reports may result in reduction of the grant award and/or the withdrawal of Project funding, in which case funds would be returned to the ERBRF upon written demand from MDOT.

The Recipient further agrees to make such other reports, disclosures, or certifications as may be required by MDOT.

ARTICLE II.
GENERAL PROVISIONS

Mr. Jared Morrison

Rankin County Board of Supervisors

211 E Government St A

Brandon, MS 39042

Dear Mr. Morrison and Rankin County Board of Supervisors:

Each year the Rankin County Board of Supervisors is so gracious to sponsor and support the many programs and activities of the schools throughout our county. We so appreciate this support and, like you, recognize that strong schools like the ones we are blessed with in Rankin County, are a foundation of a healthy, thriving community. Thank you for your continued support!

As you know, each year parents of Florence High School seniors plan and host a Grad Night event to provide a safe and healthy celebration of this important life milestone for our children. The Board of Supervisors has always been so generous in supporting this event and we again ask for your financial support for the FHS class of 2024 Grad Night event.

As part of our planning for the event, we intend to recognize the event sponsors on signage at the event that night and on the design for the shirts that will be given to each attendee (students and parent volunteers). In addition, as business and organization donations are received, our planning committee will submit press releases to Rankin County News and The Florence News for inclusion in their printed publications and online social media.

Thank you for your consideration of our request and for your long-time, generous support of our students and all students in Rankin County. Please let us know if you have any questions or need additional information. I may be reached at 601-624-7366 (Corri).

Sincerely,

Corri Jordan

Secretary

Rankin County

Dear LPA Official:

This is to advise that the Mississippi Transportation Commission has concurred in your request to award the contract for the construction of the subject project and you are hereby authorized to send the Notice of Award Letter and contract documents to AJ Construction, Inc., Madison, MS. Upon execution of the contract, you are authorized to issue the Notice to Proceed/Notice of Execution to the contractor and copies of this Notice should be furnished to the Chief Engineer, State Local Public Agency Engineer, Materials Engineer and Construction Engineer, MDOT, Box 1850, Jackson, Mississippi 39215, and to the District Engineer & District LPA Engineer, P.O. Box 90, Newton, MS 39345. Prior approval by MDOT is required for any Supplemental Agreement and Quantity Adjustment to become part of this contract. See Chapter 7, Item 7.5 Supplemental Agreements in the on-line PDM (www.gomdot.com, Projects, Local Public Agencies).

The LPA's share (20%) will be deducted from each monthly LPA-001 (Generated by MDOT's LPA Site Manager) but will convert to a maximum of 100% as the federal funds are exhausted. The total project cost (consists of the low bid) for this project is $2,381,275.70. Federal funds in the amount of $1,674,750.00 will be applied toward this project. Based on the total project cost for construction and federal funds awarded, the actual LPA local percentage is (29.67%). As a reminder, any cost exceeding the federal amount of $1,674,750.00 will be borne by the LPA.

The CFDA number, **20.205-Highway Planning and Construction**, is to be used on the Schedule of Federal Expenditures to report the federal project expenditures incurred in the current fiscal year.

As a sub recipient of FHWA pass-through funds, the LPA is required to complete and submit the Single Audit Certification and Exemption Form. The LPA is required to complete and submit this form every fiscal year hereafter until the project close-out.

Your attention is respectfully directed to the on-line PDM as it pertains to engineering and supervision of the construction and sampling and testing of materials. Also, as contained in the PDM, it is requested that ten (10) copies of the executed proposal, contract documents, and half scale plans be furnished to this office for distribution. One of these copies must be certified by the LPA as a true and correct copy of the original.

Attachment: Vardoc (19504 : Various Documents)

Attached are the original OCR-481-LPA Forms for the referenced project. Copies of this original, approved fo must be inserted into each of the executed contracts. The LPA must retain the Original OCR-481-LPA Form for their files.

There are several forms used to monitor the contractor's progress in administering the Disadvantaged Business Enterprise requirements in this contract: OCR-482-LPA, OCR-483-LPA, OCR-484-LPA, OCR-487-LPA. If you have questions concerning usage of these forms and what you should do with them, you may contact the Civil Rights Division, Box 1850, Jackson, Mississippi, or @ (601) 359-7466.

Also, included in the attachments are the following forms:

- RPS-1 (Rev. 6-19) - Request for Permission to Subcontract, which we are recommending that LPA's utilize unless they have their own form. Please do not use the MDOT CAD-720 form.
- NRAA-1 (Rev 6-19) - Notice of Requirements for Affirmative Action to Ensure Equal Employment Opportunity (Executive Order 11246).
- SCC-1 (Rev. 6-19) - Sub-Contract Certification for Federal Aid Projects.

It will be necessary to hold a preconstruction conference **before the contract time is scheduled to begin** and **before the beginning of any construction** on this project. Please contact your District LPA Engineer for the persons that should be included in attendance at the preconstruction conference.

Sincerely,

Lee Frederick, P. E.

Attachment: Statement of Work Agreement with Core Technology, LLC, for Full-Spectrub Cybersecurity Assessment (19458 : Authority for

Scope of Work

Cybersecurity Assessment Activities and Methodology

MHC will assess up to Client external/internal information systems (up to 12 external IP addresses, approximately 500 internal systems, and with automated scanning of up to 1 web site):

Reconnaissance

Reconnaissance involves research-based activities to generate a profile about an organization and serves to uncover what information is easily available to potential attackers via publicly available and commercial resources. Information is discovered using Open-Source Intelligence (OSINT) techniques and tools, along with commercial and proprietary information sources. Acquired information is analyzed to determine if the organization is exposing information that is beneficial to attackers, sensitive in nature, or could lead to increased risk of compromise.

Enumeration

Enumeration processes actively map out systems, open ports, and services provided via open ports within a given testing scope. An iterative approach ensures that as much as possible is understood about systems in scope for testing. Automated tooling is employed initially to perform the heavy lifting associated with network mapping, service identification, and vulnerability scanning. Manual enumeration and research is performed to dig deeper into identifying services and their associated versions, configurations, and uncover any additional vulnerabilities or publicly-available exploits that may exist.

Exploitation (via actual exploitation or facilitated access)

Exploitation is an entirely manual phase where an attack plan is carried out based on what information was discovered in the Reconnaissance and Enumeration phases. Attack paths are followed based on identified vulnerabilities to determine if vulnerabilities are truly exploitable, and if so, to determine what the resulting potential impact would be. Exploitation, when performed, is always on a case-by-case basis and with customer written approval.

Post Exploitation (via actual exploitation or facilitated access)

Post Exploitation techniques help determine the extent of a potential compromise and employ known attacker techniques for exfiltration and persistence mechanisms. Data sampling (versus downloading entire databases or other large information assets) is used to demonstrate potential impact by avoiding exfiltration of large amounts of sensitive information. Additional enumeration activities (e.g., network mapping to determine what a compromised asset has access to in a DMZ or internal network) may occur as part of the post-exploitation phase, however any exploitation, lateral movement, or other active testing will be limited to assets that are in scope.

Penetration testing and post exploitation activities will be fully coordinated with trusted agent points of contact designated by the Client to ensure project scope limits and guidelines are observed.

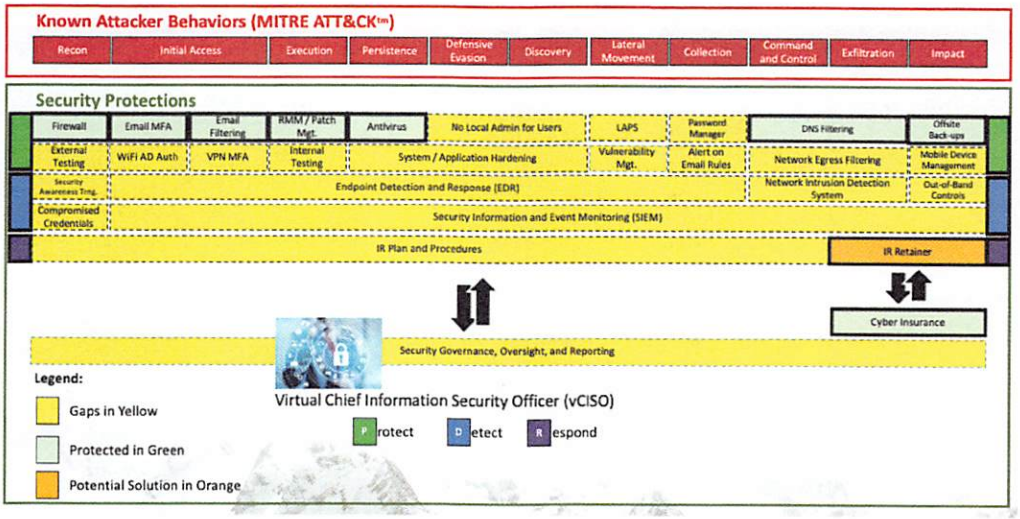

Cybersecurity Program GAP Analysis Activities and Methodology

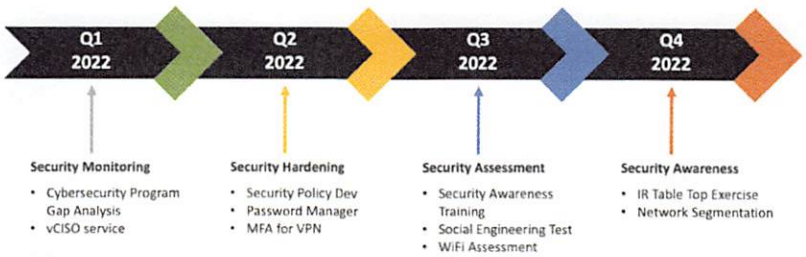

MHC will perform the following specific activities to assess the Client's cybersecurity protections:

- Inventory the Client's cybersecurity products and protections
- Analyze these protections against known attacker behaviors using the MITRE ATT&CK framework

Attachment: Statement of Work Agreement with Core Technology, LLC, for Full-Spectrub Cybersecurity Assessment (19458 : Authority for

- Perform network testing using Nessus Professional scanner and open-source security testing tools
- Identify gaps in cybersecurity protections relative to attacker tactics, techniques, and procedures
- Produce a cybersecurity program roadmap for phased improvement of the Client's overall cybersecurity posture

DELIVERABLES:

For the tasks (above), the Contractor will provide the following:

- Immediate reporting of critical security flaws (via email, as defined by customer prior to testing)
- Formal written report that summarizes task security findings, observations, and recommendations. The Contractor will recommend measures to correct or mitigate the security issues or vulnerabilities observed during the assessment
- Educational leave-behind materials for staff

Contractor Responsibilities

The Contractor will provide the necessary computer hardware and software for security testing, vulnerability assessment, manual validation, scanning for wireless access points, and report preparation.

MOSQUITO CONTROL

PROFESSIONAL SERVICES AGREEMENT

THIS AGREEMENT for Mosquito Control Professional Services is entered into between the **Rankin County, Mississippi** (County) and **Vector Disease Control International** (VDCI).

For the protection of its residents, the County desires to provide a professionally designed and integrated program for the control of the mosquito population in the County. VDCI has agreed to provide these services subject to the terms and conditions of this Agreement.

NOW, THEREFORE, in consideration of the mutual covenants, agreements, and considerations contained herein, the County and VDCI agree as follows:

1. **Term of the Agreement**. The Initial Term of this Agreement shall be for the period beginning January 1, 2024 and ending December 31, 2024. Provided, however, that the County and VDCI may mutually choose to renew the Agreement for an additional subsequent renewal term of one year beginning on January 1, 2025 and ending on December 31, 2025 under the same terms and conditions as set forth below.

2. **Services to be Provided**. During the term of this Agreement VDCI shall provide the following services during the mosquito breeding season:

a) **Surveillance**. Larvae breeding sites such as ditches, tire piles, artificial containers, septic ponds, rainwater pools, etc. will be inspected at least weekly. In addition, adult mosquito populations will be monitored using light traps, landing rates, and

resting stations. All collections will be identified as to species and population distribution. Density will be plotted to detect any changes in problem areas.

b) **Larviciding.** VDCI will apply only EPA-registered chemical and biological larvicides throughout the County. These will be applied at least weekly to persistent mosquito production areas and as indicated in other production areas. Chemicals, application rates and methods, including aerial application if needed, will be tailored to habitat and mosquito species in order to provide greater control.

c) **Adulticiding**. VDCI will apply only EPA-registered mosquito adulticides that will be dispensed by aerial application, from truck-mounted, or hand-held ultra-low volume (ULV) equipment throughout the County in order to provide uniform control and protect against re-infestation. All ULV applications will be timed to coincide with peak mosquito activity in order to provide the most effective control possible.

d) **Record Keeping**. VDCI will keep complete records of all operations including records of inspections and larvicide and adulticide applications, all of which will be tabulated and presented in written monthly reports to the County. All forms and reports of pesticide usage required by all regulatory agencies will be filed to comply with applicable laws and copies will be submitted to the County for its files.

3. **Payment**. For services to be provided by VDCI during the term hereof, the County shall pay to VDCI the following:

a) For the primary term (2024) the sum of TWO HUNDRED TWENTY FOUR THOUSAND FOUR HUNDRED DOLLARS ($224,400.00) in twelve (12) equal monthly installments of $18,700 each month, payable on or before the 15th day of each month, beginning January 15, 2024 and continuing similarly unless and until

terminated.

4. **Insurance**. VDCI shall at its own expense procure and maintain from a company or companies authorized to business in the State of Arkansas the following coverages

a) Workers compensation;

b) Public liability coverage to a total of one million dollars ($1,000,000.00) minimum coverage. The County will be named as an additional insured on this policy. VDCI shall provide the County with written proof that it has obtained the insurance required under the terms of this Agreement.

5. **Non-Liability of the County, Its Officials and Employees**. No employee or elected official of the County shall be personally responsible for any damage resulting from the negligence or intentional acts of VDCI in the performance of services required under the terms of this Agreement, including full and complete compliance with all State and Federal laws, rules and regulations.

6. **Indemnity**. VDCI shall indemnify and hold harmless the County, its elected officials, agents, and employees from and against any and all suits, actions, legal proceedings, claims, demands, damages, costs, expenses, and attorneys' fees as a result of any work done by VDCI in the performance of this Agreement, including full and complete compliance with all State and Federal laws, rules, and regulations.

7. **Defaults**. A material breach of any of the terms and conditions of this Agreement on the part of VDCI shall be grounds for the termination of this Agreement at the option of the County.

Attachment: Professional Services Agreement for Mosquito Control with Vector Disease Control International (VDCI) (19517 : Authority to Enter

The County, upon termination, shall be at liberty to re-let the work to other parties, or to perform the work without contract, and in either case, VDCI shall be liable for any excess costs in performing such work over the cost to the County if VDCI had continued to perform in accordance with this Agreement.

8. **Civil Unrest**. Notwithstanding anything contained in this Agreement to the contrary, in the event VDCI, in consultation with the Rankin County Emergency Operations Center, determines that because of civil unrest a substantial risk of personal injury to its employees or damage to its equipment exists, then VDCI may refuse to provide services in that part of the coverage area where such risk exists until:

a) Order is restored and the threat of such injury or damage has been resolved; or

b) The County has, in the sole discretion of VDCI, taken adequate security measures to ensure the safety of VDCI's personnel and equipment. Any refusal by VDCI to treat a part of the coverage area under the circumstances described in this section shall not be deemed to be a breach of this Agreement.

9. **Termination**. This contract shall become effective on the 1st day of January 2024, and shall remain in full force until December 31, 2024 (the "Termination Date"). This contract may be renewed for a period of a one (1) year renewal, subject to mutual agreement by both parties to any changes in the pricing and terms of this agreement. The Initial Term shall be defined as 1st day of January 2024 until December 31st, 2024. During the Initial Term, or any renewal term, either party hereto may terminate this contract or any renewals hereof by giving the other party thirty (30) day written notice of its intent to terminate said agreement.

10. **Prohibition of Other Commercial Mosquito Control Applications.** Because of its various reporting and record keeping responsibilities and the liability assumed by VDCI under the terms of this Agreement and because of potential harm to the public, the County shall not

permit other commercial mosquito control pesticide applications to occur in public areas of the County during the term of this Agreement.
