VI. CRAIG SLAY, BOARD ATTORNEY

Discussion of, and potential action, to provide for specific finding that changes or modifications to the original contract (for demolition of the old Marquette Cement Facility) between Rankin County, Mississippi, and 2B Dirt & Contracting, LLC, are necessary and would better serve the purpose of Rankin County by allowing the Rankin County Road Department to receive possession of the rubble generated by the demolition activities at a greatly reduced cost. The Rankin County Board of Supervisors issues a finding that such change and/or modification to the demolition contract are necessary under the circumstances without the necessity of further public bids. The Rankin County Board of Supervisors specifically finds that such changes or modifications to the original demolition contract are made in a commercially reasonable manner and are not made to circumvent the public purchasing statutes. The terms of the modification to the original demolition contract are as follows: The contractor will crush, deliver, and stockpile demolished concrete at a rate of \$20.00 per ton. The crushed concrete shall be per Section 703.04.3 of the *Mississippi Standard Specifications for Road and Bridge Construction, Mississippi Department of Transportation, Jackson, 2017 Edition*.
